² Investment returns aren't guaranteed. Past performance isn't a reliable indicator of future returns. Returns from equivalent investment options of the ARF and STA super funds are used for periods before 1 July 2006.

³ For TTR Income accounts, the investment return is based on the crediting rate for super (accumulation) options. From 1 April 2020 to 2 September 2022 the crediting rate includes an administration fee that is deducted from investment returns for super (accumulation) accounts. TTR Income accounts were adjusted to refund the administration fee deducted from investment returns. All TTR Income account administration fees are deducted from account balances.
